

Fairlead

Anchor

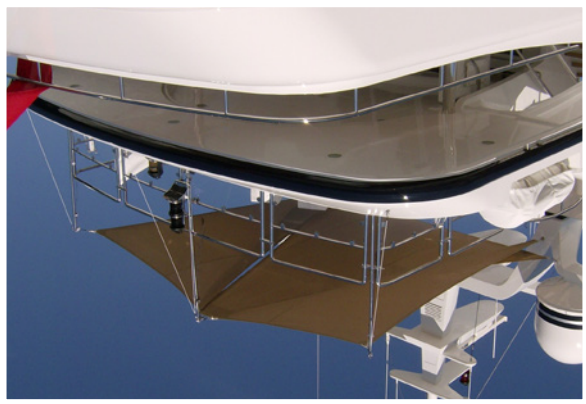

Our Metal Fabrication department offers a range of stainless and aluminum solutions for your boat, including San Juan's, aft brows, and bow rails. Our anchor fairleads are known not only for their ergonomic design, but for their elegant appearance on your boat. Our metal products meet the highest quality standards that our customers expect in their finished parts. With our in-house capabilities, if you can imagine it, we can fabricate it.

## Meet Pam and Mike

## About Canvas Designers

My wife Pam and I launched Canvas Designers in 1985 with two employees and a single sewing machine. Canvas Designers has since evolved into the largest custom marine canvas shop in the country.

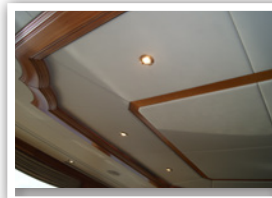

We design, manufacture, and deliver custom solutions for your boat, including canvas, interior and exterior upholstery, EZ2CY and soft enclosures, blinds, and metal fabrication.

Our production covers everything from small boats to mega yachts. Our clients range from local boaters to international celebrities.

We take great pride in our work and have many happy customers. Stop in to see us or give us a call today!

From interiors to exteriors, new construction, recovers and new designs, Canvas Designers can do it all.

Quilts and Custom Bedding

Shouldn't you rest as well in your stateroom as you do in your bedroom?

All Canvas Designers mattresses are custom built for your maximum comfort.

Mattresses, Bedding, and Pillows

Shams and Sheets

Flooring & Window Treatments

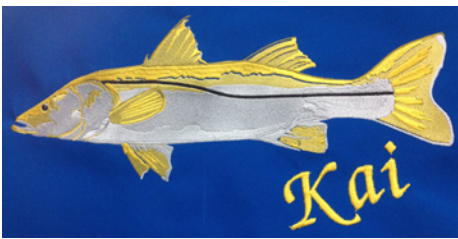

Canvas Designers has a wide variety of carpet, hardwood and laminates to accentuate your soul.

Window treatments help tie the whole interior look together.

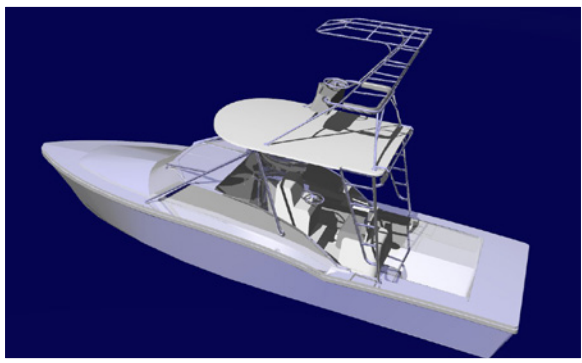

Custom Embroidery

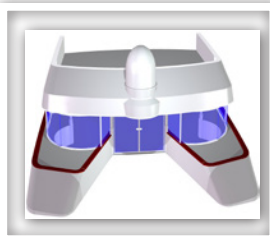

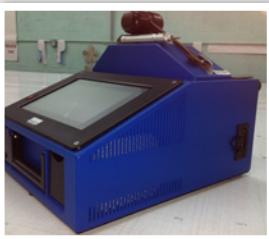

Our embroidery machine has 15 needles, contains a 2,000,000 stitch memory and can stitch 1000 stitches per minute. Embroidery applications include: names, designs, logos, caps, hats, shirts, pants, bags, blankets, etc.

CAD

We offer in shop drafting and modeling services to transform your drawings and designs into real world products.

Our Technology Department offers a variety of services for fabricators to take their production to the next level and automate their processes.

Come visit our state of the art facility and showroom.

EZ2CY®

Stay safe and comfortable in any kind of weather with EZ2CY® enclosures.

EZ2CY® enclosures are able to meet and exceed customer expectations on such a consistent basis because they are made from quality components.

With the highest quality components, EZ2CY® enclosures are lightweight, crystal clear, and long-lasting. Whether custom-fit your Boston Whaler or a full motor yacht, our enclosures are precisely measured for a custom fit, and they last season after season.

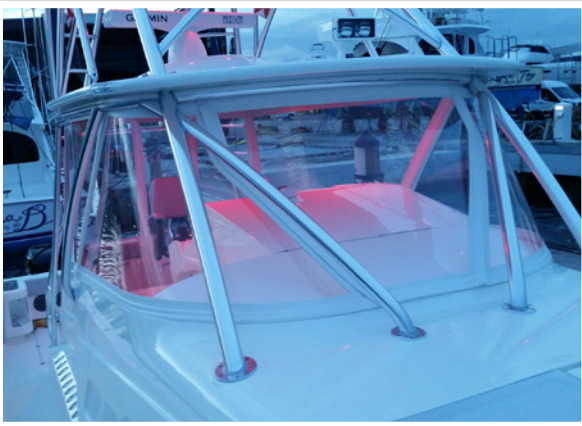

Soft Enclosures

The ability to design the best enclosure for your boat is something that we have perfected over the years.

Our soft enclosures are constructed of the finest materials in the industry and we top off the enclosure by getting the best pattern possible for the best fit and look you could ask for.

Our soft enclosures will protect the investment in your vessel and compliment the lines of your boat.

FenderHooks

At FenderHooks we make just one kind of fender hook, "The Finest".

They're used to protect your yacht's varnish, paint and polished areas, subjected to chafe caused from lines securing your yacht's fendering systems. Investing in high quality, hand crafted, FenderHooks designed for your vessel is our specialty.

Accessories

Bridge Master, a clear safety glass window that installs in your existing vinyl panel providing exceptional visibility in even the worst of conditions while allowing your enclosure to protect you from the elements.

Our Wave, Soul and Cruise personal transporters are a perfect "go anywhere" solution. They are safe and fun for people of all ages.
